Prescription For Life

By Dr. Richard Furman, MD, FACS

1. Based on documented medical research.
2. Three simple strategies to live younger and longer.
3. Six (6) foods you should NEVER eat again.
4. Why lack of exercise is killing you.
5. Decrease the risk of heart attack, stroke, and dementia.

P.S.

This book is a must read for every Nigerian in order to increase our average life-span.

This book is as powerful as *The Purpose Driven Life* by Rick Warren, with over sixty million copies sold worldwide. I have prayerfully read PDL over ten times, each time gaining a new perspective.
